Tobacco Plant Beds.

PRPER TOBACCO WAREHOUSE CO.) Sr. Louis, Mo.

After our heavy expenditure tion of tobacco seed, and the preparation already made for securing county, on plants for a large planting, we should be greatly disappointed, as would It being the ninth day of the Great Court our planting friends, at even a par-We. tial failure in the plant crop. therefore, urge planters to spare no door of the court boase in the town of Keytesville, county and State aforesaid, ant supply of plants, as without this sell at public autimout the highest bidder. your success in growing and securing a paying tobacco crop is endangered at the very outset, and your year's labor may be partially or entirely lost.

Planters have doubtless made the usual early preparation of plant beds and are engaged at it yet, as the weather is fit. But in addition to this, and for the benefit of those who may not be satisfied with their early sowing, but think it too late to resow beds up to the middle of April, following plain instructions:

Select carefully a southern or top soil. Burn, but not enough to bake. Hoe shallow but do not turn all roots and clods. Then mix your seed-a tablespoonful to half a gallon of heavy wood ashes or fine, dry sand, which is enough to sow ten feet square. Divide your bed into sections both ways, and sow broadcast both ways, and tramp or roll it level. Then a light dressing of well-rotted stable manure or guano from your hen roost, and a light sprinkling after dressing will bring up and start your plants very quickly. Your bed is now ready to cover. Take six to ten inch planks and plant edge up around the borders of your bed, and gable-end planks foot to fifteen inches wide, and you have a foundation for a covering made of very thin, cheap muslin, good weather remove the covering 10 o'clock A.M. for four to six days,

1808. 1884. THE OLD RELIABLE.

CAMPAIGN YEAR PROSPECTUS! Democratic Politics-All the Lews, Agricultural, Con mercial and Industria,-Advancement of Home Interests-Bright and Refined Family Paper.

THE MISSOURI REPUBLICAN for the cam might year of 1884 will improve upon its ast noncrable record for ability, entermer, reliability, clenliness, devotion to e icen interests, and in all oiler essentastrial social Family News-pager. The leading Democratic paper of the West; if not of the United States, it will carnestly advocate the principles of the Penocracy and support its chosen standard bearers. The friends who have heretofore larn won by its honest and fearless course will find t always the same safe and trustworthy counselor. Being an important factor in the work of political regeneration, it will expect to be a necessary auxiliary to every political speaker, and to every Democratic

dub in the Mississippi Valley. The Forty eighth congress will be a most mportant body; and the long session must levelope in a large degree the issues upon which the presidential canvass of 1884 will conducted. The revision of the tariff a basis of revenue rather than proteeon a basis of revenue rather than protection; the improvement of the American shipping interests; the silver question; the disposition of the Indians; the appropriation of a sufficient amount for the improvement of the Mississippi and Missouri rivers—these are the principal matters in which ne people of the West and South are vially concerned, and to them the REPUBLIax's Washington telegraphic news will be

argely devoted.

Faithful in its political service, the Re-PUBLICAN will at the same time be always fair and truthful, being first of all and above all things else a NEWS paper, giving each day a complete, thorough and exhaustive survey of the whole world, covring everything of value or interest to its renders. The REPUBLICAN will not only give all the news, but spare no pains to print it in the most intelligible and con-

The WEEKLY REPUBLICAN will be found an epitome of the entire news of the week. No other weekly paper covers the news of the whole world so entirely and so clearly, and unlike any other weekly, it bears the news to its readers thoroughly digested, systematically arranged and carefully pruned of all redundancy and repetition. The fact that it has a larger circulation than any other paper west of the Mississip-pi river shows the popular recognition that it has no equal.
